

How to Draw Facial Features

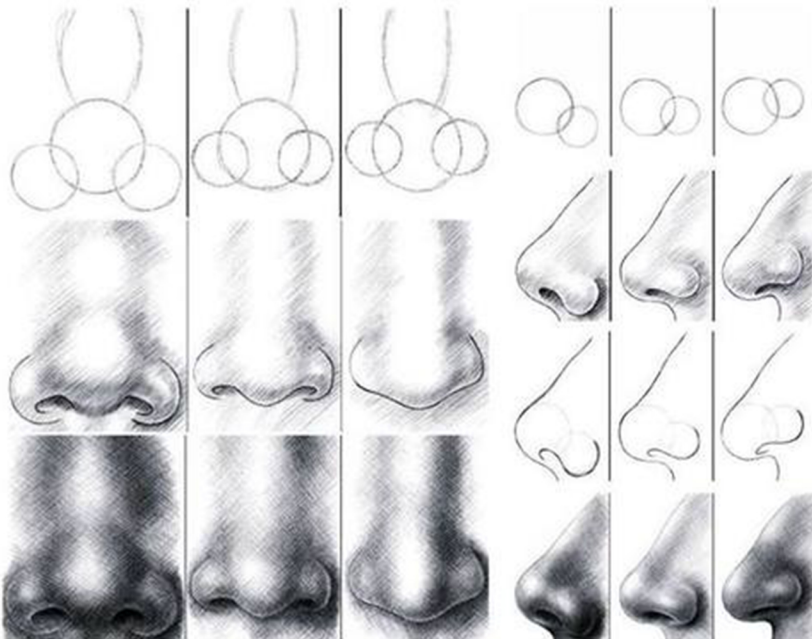

How to draw eyebrow

Instructions:

Using the examples provided, draw the following:

- One set of eyes looking to the left or right
- One eye on charcoal paper (tape or staple this into your sketchbook next to the rest of the facial features)
- One iris
- One mouth from the side
- One mouth straight on
- One nose from the side
- One nose straight on

You do not have to use these examples. You could find your own online.
