Artist Inspired Tic-Tac-Toe Game Set

This project is broken up into two phases. *Phase one*: sculpt game pieces out of clay. **Phase two**: paint a replica from a painting done by the artist you choose.

Lets get started:

Find a painting by the artist you choose and print it out to fit in the box below, paste it in. On the back side, sketch four different ideas of game pieces that would match the painting. When you are finished, get your sketches checked off to receive clay and start sculpting. We will discuss the game board more in the second phase of the project.

Paste Image of Painting Here

Create four sketches of game pieces below. They must match the painting.
